

HEXAGON WOOD SCREWS

DIN 571

- For firm wood connections.
- Thanks to hexagon head, better application of force when screwing in.
- The wood screw shapes its nut thread instead of cutting it.
- A core hole must be pre-drilled depending on the diameter and type of wood (hardwood).

Use

In wood construction, especially prefabricated row house construction, equipment hall construction, trade fair construction, boat construction, vehicle construction etc.

Galvanized steel, blue passivated
