### Notice

Prior to application, always check material compatibility and colour fading first in an invisible area, by applying graffiti remover with a cloth.

### Instructions

#### Graffiti removal:

Spray evenly and let it take effect briefly. Then wipe off the loosened paint with a damp sponge or cloth. Work from the outside inwards. The soaking time depends on the type of graffiti soiling (surface, paint, multiple coats, age etc.). With stubborn graffiti, repeat the process and extend the soaking time as required.

#### Chewing gum removal:

Spray on and leave it take effect for 2 - 3 minutes. Then remove the loosened, softened chewing gum with a brush.

The usage instructions are recommendations based on the tests we have conducted and on our experience; carry out your own tests before each application. We do not assume any liability for a specific application result due to the large number of applications and storage/processing conditions.
