

WÜPOFAST®

Take the use of new materials into account. With the new manufacturing and test methods – consistent high quality for the professional.

Note:
Not for outdoor use!

Advantages

- **25° tip**
Spot-on starting on hard surfaces like coated and waterproof particle board sheets and all types of wood, wooden materials and medium-dense fibreboard sheets (MDF).
- **Pozidriv Phillips head.**
- **Plastic glide coating**
Easy screw-in due to sharp threads with glide-promoting coating.
- **WÜPOFAST –**
3 features that speak for themselves: The larger **the bending angle**, the more elastic the screw – minimises breaking off.
- **Breaking torque**
High degree of user safety due to quality monitoring of the hardened steel.
- **Screw-in torque**
Dependent on the plastic glide coating and clean threads, as well as thread flanks – enables easy, fast screwing (user-friendly).
