

## PROFESSIONAL WINDOW SEALANT SET

Complete set for rain-repellent glass sealant for greater driving safety thanks to an improved view and greater service life of the windshield wipers.

**Art. No. 0893 012 415**

P. Qty. 1

**Rain and water bead up and roll off the window at approx. 70 – 80 kph.**

- Improved vision at night and in the rain
- Greater driving safety
- No dangerous blinding effect during night driving
- Decreased use of windshield wipers

**Easier to remove dirt, insects and ice over the long-term**

**Ultra-thin, hard-as-glass coating**

- Depending on use, effects can last up to 1 year or 25,000 km.

**Suitable for all untreated glass surfaces on vehicles of all types**

**Silicone- and AOX-free**

### Notes:

The sealed window is immediately active. Wait at least one hour before cleaning the vehicle or using a car wash. We recommend wearing gloves during sealing work. Under extreme weather conditions, a droplet film may form on the windshield, which appears to be misting from the outside. It can be removed by switching on the hot-air blower and routing the hot air onto the windshield. We recommend replacing windshield wipers together with the Window Sealant. Do not use on plastic, metal or paint. Cleaner and sealant residue must be completely removed from the body. Do not use on hot surfaces. Store frost-free and dry. Do not use abrasive, strongly acidic or strongly alkaline glass cleaners.

**Attention:** Not suitable for polycarbonate glass!

### Additional articles:

**Active Glass Cleaner, 500 mL**

**Art. No. 0890 25**

**Basic Cleaner S**

**Art. No. 0890 024 6**

**Tex-Rein Cloth**

**Art. No. 0899 810**

Set contents:	
Designation	P. Qty.
Window Sealant, 250 mL	1
Basic Cleaner, 250 mL	1
Sponge	2
Quality Seals	30

### Instructions:

#### Pre-clean:

Shake Würth Basic Cleaner well before using and apply carefully in a circular motion, section by section. Cleaner residues must be completely polished out before sealing. Do not touch vehicle window with your fingers after this.

#### Seal:

Coat and clean window in sections. Put a small amount of Window Sealant on a lint-free, clean and dry cloth (Tex-Rein) and apply to the window in a circular motion until the entire window is coated.

#### Polish:

Then thoroughly polish out any remaining haziness with a lint-free cloth.

While using the product, both the technical data sheet and the specifications of the applicable regulations are to be complied with.
