

## FORKLIFT GREASE

**High-grade synthetic lubricating oil especially designed for use with forklifts and capable of withstanding high pressures.**

- Pressure resistant lubricant for forklift servicing which also provides vibration and noise reduction.
- Leaves an adhesive film layer that continues to promote against corrosion of metallic parts.
- High creep capacity to deeply penetrate between joints of moving parts.
- Outstanding compatibility with most metals, rubbers and plastic parts found on conventional forklifts.
- Free of silicone, resin and acid.

### Good material compatibility

- Compatible with O-rings, X-rings and plastics.
- Does not harm painted surfaces.

**Resistant to sprayed water and saltwater, weak acids and bases.**

**Silicone, resin and acid-free.**

**Temperature range: -25°C to 180°C.**

**Temporarily: 200°C.**

| Contents     | Art. No.            | P. Qty. |
|--------------|---------------------|---------|
| 700ml / 519g | <b>0893 106 700</b> | 1/24    |

### Application:

Suitable for general maintenance and lubrication of forklift chains and parts such as those on the mast and carriage.

## CURTAIN TRACK LUBE

**For smooth and reliable operation of curtain rollers on trucks and trailers.**

**Suitable for curtain-side track rollers and channel lubrication.**

- Ensures smooth curtain operation without excessive drag.
- Helps to reduce roller wear for longer life.

**Anti-static silicone formulation.**

Minimal dust accumulation for long lasting effectiveness.

**Pleasant fragrance.**

**Suitable for use on other sliding fixtures like:**

- Sliding doors;
- Drawer runners;
- Fire Doors;
- Bi-fold doors.

### Instructions for Use:

Use extension tube to spray CTL into curtain roller tracks.

| Description        | Contents | Art. No.            | Pack Qty. |
|--------------------|----------|---------------------|-----------|
| Curtain Track Lube | 300 g    | <b>0893 125 080</b> | 1/12      |

Always check manufacturers' recommendations prior to use.
