

SUCTION LIFTER

With two fixed heads

- **Sturdy and rugged construction** thanks to the use of high-quality materials
- **For use on flat surfaces** for materials with smooth and gas-tight surfaces, such as glass, plastic panels, sheet metal, marble, tiles etc.

Lifting capacity/ Direction of force *	Weight	Suction disk dia.	Art. No.	P. Qty.
60 kg 	560 g	120 mm	0714 58 043	1
Spare Rubber Disk incl. rocker lever and pin			0714 58 044	

 * Parallel to the suction disk

With two movable heads

- **Also suitable for transporting curved surfaces**, e.g. vehicle windows
- **Ideal for securing windows with belts** thanks to the oblong holes in the handles

Lifting capacity/ Direction of force *	Weight	Suction disk dia.	Art. No.	P. Qty.
45 kg 	750 g	120 mm	0714 58 20	2
Spare Rubber Disk incl. rocker lever and pin			0714 58 041	1

 * Parallel to the suction disk

With one head

- **For quick and effective working**, as there is only one suction head
- Especially ideal for objects with only enough room for one suction disk

Lifting capacity/ Direction of force *	Weight	Suction disk dia.	Art. No.	P. Qty.
30 kg 	320 g	120 mm	0715 58 01	1

 * Vertically to suction disk
