

Battery terminal protector

Long-term and temperature-resistant protection for battery terminals

- Protects battery terminals, pole terminals and plug connections from corrosion, weather and battery acids
- Prevents transfer resistances and voltage drops, thereby extending the battery life.

Contents	150 ml
Colour	Blue
Smell/fragrance	Solvent-like
Chemical basis	Dimethacrylic acid ether
Shelf life from production	24 Month

Art. no. 0890 104

P. Qty.: 1 / 12

Instructions

Shake can before use. Thoroughly clean and mount the battery terminals, pole terminals etc., and spray a thin coat on all sides.

Notice

Caution: Do not spray on paint! Immediately remove residues from the lacquer with brake cleaner; otherwise spots may form.

The usage instructions are recommendations based on the tests we have conducted and based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result.
