

Diesel particulate filter cleaner

Cleaner for removing carbon and ash deposits from diesel particulate filters

Loosens and removes carbon deposits in the particulate filter

DPF can be cleaned without needing to remove it

Cuts costs, as a new particulate filter does not need to be fitted (depends on the condition of the particulate filter)

Non-flammable

Neutral, ash- and metal-free recipe

Residue-free evaporation

Contents	400 ml
Colour	Rosy
Smell/fragrance	Aminic
Chemical basis	Water
Shelf life from production	15 Month

Art. no. 5861 014 500

P. Qty.: 1 / 12

Details/Application

- Remove the temperature or pressure sensor
- Insert the probe into the hole created and spray in the direction of the particulate filter to empty
- Recovery then needs to be initiated manually via the tester or by taking a test drive
- Interrogate the fault memory following recovery and delete any errors if necessary. One can is sufficient for one particulate filter

Instructions

The diesel particulate filter cleaner is used to rectify performance losses or faults that are exacerbated by dirty diesel particulate filters. The full absorption capacity is restored by cleaning the filter.
