

Injector-Ex injector solvent

Mineral oil free injector and spark plug solvent with KENA® microfluid formula.

Special product for loosening injectors and spark plugs in assemblies and engines

- Gentle, since seized connections are loosened without considerable force or tools
- Product can remain effective over an extended period, penetrate deeply and thus ensure optimal work results

KENA® microfluid technology

- Very good creeping properties allow deep penetration of the product
- Even injectors and spark plugs with significant carbon build up are loosened efficiently
- Slow flash-off strengthens the effect, the rust is converted and carbon deposits dissolved
- Very economical to use

Contents	250 ml
Colour	Colourless
Smell/fragrance	Fruity
Chemical basis	Surfactants, ester
Shelf life from production	24 Month

Art. no. 0893 300 250

P. Qty.: 1 / 12

Details/Application

Special product for loosening rusted and oxidised injection nozzles, injectors and spark plugs in engines and assemblies.

Proof of Performance

Notice

Remove excess material or splashes immediately from sensitive and painted surfaces using a damp cloth. When diluted with water, the product loses its intense cleaning effect.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
