

Aluminium polish

For cleaning and polishing

Polish paste

- Can be used in all positions
- Does not run on vertical surfaces

Polishing additives with remoisturising effect

- Produces a smooth surface that repels water
- Prevents re-soiling

Low consumption

High yield due to minimum use of polishing compound

Weight of content	500 g
Colour	Dark grey

Art. no. 0893 121 301

P. Qty.: 1 / 6

Details/Application

For cleaning stubborn dirt such as metal oxidation, surface rust, efflorescence and other deposits. Exhibition stand construction, kitchens, vehicle construction and boat building, building services etc. Untreated aluminium surfaces such as lorry rims etc. Also suitable for brass, copper and similar metal surfaces.

Tip: optimum results as a high-gloss finish for pre-polished stainless steel surfaces.

Instructions

Apply a thin coat of aluminium polish and polish with a soft cloth, working in a circular motion, until a black coat is produced. Then polish with a clean cloth to a high sheen. Polish residue can be removed with stainless steel power cleaner. Machine polishing possible.

Notice

Do not apply to anodised surfaces.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result.
