

Diesel Engine Oil 15W-40

High performance diesel engine oil for new generation passenger vehicles.

- Diesel engine oil blended using high performance base oils and additive packages to meet the lubrication requirements of all the new generation Diesel Passenger Vehicles.
- The Multi-grade property ensures that the oil can be used for all climatic conditions.
- Designed for lubrication of vehicles with Naturally Aspirated, Turbocharged or EGR fitted diesel engines for both in city, on and Off highway roads.
- The superior anti-wear property ensures reduction in engine wear, thus prolonging the life of the engine.
- The oil has very good detergent & dispersant property which keeps the engine parts clean.
- Excellent control on oil thickening.
- Minimizes oil consumption.
