

Plastic adhesive REPLAST® Easy Superfast

For REPLAST® Easy plastic repair system

An adhesive for virtually every type of plastic

- No need for inconvenient use of different types of adhesive
- Can be used for repairs and structural bonding

Special positive mixer

- Optimum mixing with minimum volumes
- Low adhesive loss (waste)

Quick to harden

Further work, such as sanding, is possible within an extremely short period of time

Excellent chemical resistance

Resistant to a wide range of liquids, such as petrol, many lubricating oils and ethyl acetate

Solvent-free

Contents	50 ml
Chemical basis	Two-component polyurethane
Colour	Black
Processing time	30 s
Min./max. processing temperature	15 to 25 °C
Min./max. temperature resistance	-30 to +100 °C

Art. no. 0893 500 5

P. Qty.: 1 / 6

Details/Application

Vehicles

Spoilers, radiator grills, panel clips, bumpers, brackets on headlights and radiators etc.

HGVs and coaches/buses

Aprons, bumpers, air intake pipes, wheel arches etc.

Motorcycles

All panelling

Instructions

The substrate must be capable of bearing loads and must be clean, dry and free from grease and rust. Old adhesive residues must also be removed. To do so, clean the surface with the plastic cleaner and apply the primer. The flash-off time must be observed. Discard some adhesive before screwing on the mixer nozzle. The first 2 cm of adhesive from the mixer nozzle should also not be used. When applying the adhesive, the mixer should remain in the adhesive to prevent bubbles forming. Observe the work instructions.

Notice

There may be adhesion problems in individual cases due to the coatings and release agents used in some cases in the plastic production process. Not suitable for PE (polyethylene), PP (polypropylene) or PTFE (polytetrafluor ethylene) plastics. Check material compatibility on an invisible area if necessary.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. We do not assume any liability for a specific application result due to the large number of applications and storage and processing conditions. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
