

Pneumatic blind riveter PNG 102

Handy, compact compressed air unit with adjustable riveting mandrel suction with a lockable slide switch for processing blind rivets.

Patented gripping jaw system

- Significantly prolongs the service life of the clamping jaws.
- Secure, non-slip pulling grip of rivet pins.

Minimal compressed air consumption

Double use of compressed air for setting the rivets and extracting the rest of the mandrel.

Prevents overloads

Overload valve

Easy to use

Low-vibration and sound-proof

Keeps hands warm

Rubberised grip

Clean working

Mandrel collecting container with integrated safety device

No exhaust air in the working area

Rotatable air deflector

Art. No. 0703 937 22

P. Qty.: 1

Working pressure	6.3 bar
Min./max. working pressure	5-7 bar
Stroke length	18 mm
Length	278 mm
Height	291 mm
Min./max. rivet diameter	2.4-5 mm
Max. mandrel diameter	3.2 mm
Type description	PNG 102
Air consumption per impact	2.3 l
Hose connection thread	1/4 inch, 6 mm
Rivet setting force	9000 N

Details/Application

Can be used to process blind rivets with a diameter of 2.4 mm–5.0 mm made of any material, and limited use for blind rivets with a diameter of 6.0 mm made of aluminium/steel.
